CUSTOM HORIZONTAL & VERTICAL FLAGS

Custom flags are perfect for displaying a logo at businesses, city halls, schools, and stadiums, or they can promote an upcoming event. Flags are digitally printed on polyester flag cloth using water-based heat-set dye sublimation inks. Flags are single-sided (1S) or double-sided (2S) with a block out layer in-between.

CUSTOM FEATHER DANCER

Popular Feather Dancer Flags are printed right-reading front, reverse reading back (1S). The metallic streamers provide additional movement in the wind to help attract attention.

Kit includes flag with metallic streamers, flagpole hardware, and a fiberglass ground stake.

Flags are designed for use with OEM hardware only.

CUSTOM KAHUNA

Kahuna Flags combine the eye-catching movement of our Feather Dancer Flags with the large real estate and ease of layout found in a rectangular format. Great for retail businesses and property management promotions, Kahuna Flags are digitally printed with a right-reading front and reverse-reading back (1S).

Kit includes flag, flagpole hardware, and a fiberglass ground stake.

Flags are designed for use with OEM hardware only.

VINYL & MESH BANNERS

Our grand format printers offer seamless banners up to 16 feet using high quality, durable, and fade-resistant inks. Vinyl banners are affordable and versatile signage for property advertising and events. Mesh banners are perfect for very large or high wind applications. Custom banners are made to your size specifications with multiple finishing options available.

WARNING! This product can expose you to chemicals, including Methylpyrrolidone and Benzophenone which are known to the State of California to cause cancer or birth defects or other reproductive harm. For more information, go to www.p65Warnings.ca.gov

3'x6'

3'x10'

CLOTH BANNERS

Display cloth banners are a lightweight alternative to vinyl banners and are ideal for indoor applications. The printed surface cannot be scratched, and you can save on shipping costs due to the lighter weight. Wrinkles can be steamed away (do not iron or apply direct heat). Dry clean only.

		PRICED PER SQUARE FOOT

Prices are subject to change

POLE BANNERS

Highlight your property name, amenities, or special events on light poles with double-sided pole banners. We offer time tested hardware that's available in several standard widths. Have existing hardware? We'll size your banners to fit!

⚠ WARNING! This product can expose you to chemicals, including Methylpyrrolidone and Benzophenone which are known to the State of California to cause cancer or birth defects or other reproductive harm. For more information, go to www.p65Warnings.ca.gov

POCKET SIZING

When specifying the required pocket size for pole banners, please base it off the size of the pole used for the crossbars. The size should be the outside diameter of the crossbar. Square crossbars will always require a larger sleeve than round crossbars. Please be sure to specify size and round or square crossbar.

3" POCKET*

* Length of material folded to make pocket

SOFTLINE PADDED A-FRAMES™

CALL FOR PRICING

Softline A-Frames™, our signature padded a-frames, keep your athletes safe while showcasing your sponsors or team branding right next to the action. These padded a-frames are great for courtside or field side placement and are available in 3' x 4' or 3' x 8' size. They are easy to move and they fold up flat for easy storage.

Softline A-Frames™ feature vinyl banners with a quick-change Velcro® system which allows for easy and affordable season or game-to-game graphic changes. The ability to swap out graphics can be useful when sponsors change their artwork midseason or when hosting special events with unique sponsors.

STARS & STRIPES STREAMERS

All weather-resistant metallic are double sewn on a plastic-covered, high-strength, sag-resistant header.

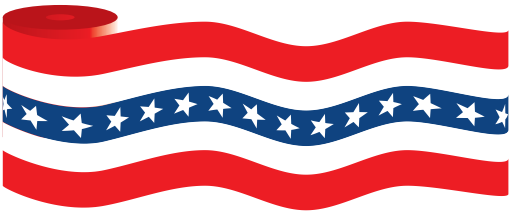

SKU	SIZE	1-20 STRINGS	21-40 STRINGS	41-99 STRINGS
1218AMMH-30	30' (18 Panels)	\$31.33	\$29.22	\$27.31
1218AMMH-60	60' (36 Panels)	\$56.54	\$54.63	\$52.72

Approx. Shipping Weight: 30 ft = .75 lbs ea., 60 ft = 1.5 lbs ea.

A

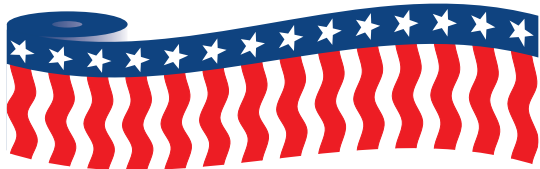

PATRIOTIC POLY ROLL 36" X 300'

Printed 3 colors on clear 2 mil poly film.

PATRIOTIC POLY ROLL 29" X 300'

Printed 2 colors on white 2 mil poly film for rich color and vibrant appearance.

SKU	SIZE	1-4 ROLLS	5-10 ROLLS	11-24 ROLLS	25+ ROLLS
US3	36" x 300'	\$152.65	\$144.92	\$142.99	\$139.12
US5	29" x 300'	\$152.65	\$144.92	\$142.99	\$139.12

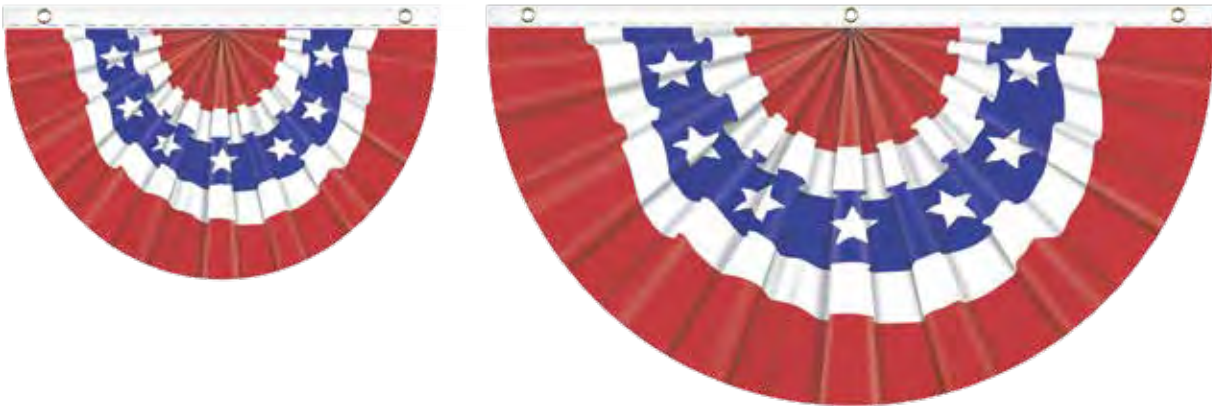

Approx. Shipping Weight: 1 roll US5 = 10 lbs, US3 = 12 lbs.

A

TRADITIONAL FAN BUNTING

PATRIOTIC MIRAGE FAN BUNTING

An economical alternative to traditional pleated fan bunting. This unique design projects a rich 3-D pleated appearance. The Mirage Fan Bunting is hemmed and includes a flag style header with grommets.

SKU	SIZE	1-11	12-24	25-72	72+
153MPF	1.5' x 3'	\$10.04	\$9.90	\$9.34	\$8.65
35MPF	3' x 5'	\$21.33	\$19.24	\$18.55	\$17.86

Approx. Shipping Weight: 1.5' x 3' = 0.5 lbs ea. and 3' x 5' = 1 lbs ea.

A

CUSTOM MIRAGE FAN BUNTING

Customize this unique 3-D pleated appearance design with your logo or slogan and color scheme. The Mirage Fan Bunting is printed on polyester flag cloth and finished with a hem and a flag style header with grommets.

SKU	SIZE	1-11	12-24	25-72	72+
MFB-35	3' x 5'	\$126.91	\$85.07	\$68.34	\$62.76
MFB-36	3' x 6'	\$138.07	\$96.23	\$76.71	\$72.52

Approx. Shipping Weight: 1 lbs ea.

ART REQUIREMENTS

Setting Up Your Document	53
File Formats	53
Templates	54
Image Resolution	54
Hem & Trim Allowances	55
Color Matching	55

SETTING UP YOUR DOCUMENT

Follow the guidelines in this section to get your files set up properly or you can contact us and our designers can get your files set up for an extra charge.

- 1 Please build one file per design. In the case of programs that support multiple pages only place one design per page.
- 2 All colors used in document must be specified as CMYK, not Spot colors. Files submitted in RGB will be converted to CMYK which may cause a color shift in the art.
- 3 Create your document to actual size, with the dimensions in inches, NOT feet. (For example, if your final product is 3' x 5', build it as 36" x 60".) For banners and flags, inset your text and important graphics 2.5" from the edge to prevent them from being sewn through in the finishing process.
- 4 Please remember to save a copy of your file with the type converted to outlines, paths or curves and send us this copy to prevent any font substitution problems.
- 5 Most programs allow the user to add an image to a file by linking or embedding. Embedded images are stored within the document itself, while linked files are not. Because of this, linked files can suddenly vanish when opened from a different computer. Embed all images to avoid losing them when files are submitted.

FILE FORMATS

We support two main types of file formats: Vector Art and Raster Art. If you're unsure of what type of art you have, check out the diagram and details below:

VECTOR

- Can be scaled to any size while maintaining quality
- Preferred unless printing photos

RASTER/BITMAP

- Made of pixels (tiny squares)
- When scaled larger, the image will look pixilated (fuzzy)

VECTOR ART

- Can be scaled to any size while maintaining quality
- Preferred unless printing photos

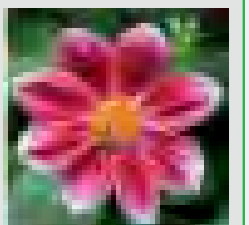

RASTER ART

- Also known as bitmap art
- Composed of pixels (tiny squares) grouped together to make an image
- When scaled larger, the image will look pixilated (jagged)

High resolution image
200 dpi

Low resolution image
25 dpi

TEMPLATES

While this applies mostly to vector documents, please follow the guidelines in this section to get your files set up properly or you can contact us and our designers can get your files set up for an extra charge.

BLEEDS

Consider the bleeds in a document the ‘wiggle room’ to make sure you don’t have any white showing once your graphic is trimmed out from it’s printed roll format. This also helps account for any minor shifting that may occur during the printing process.

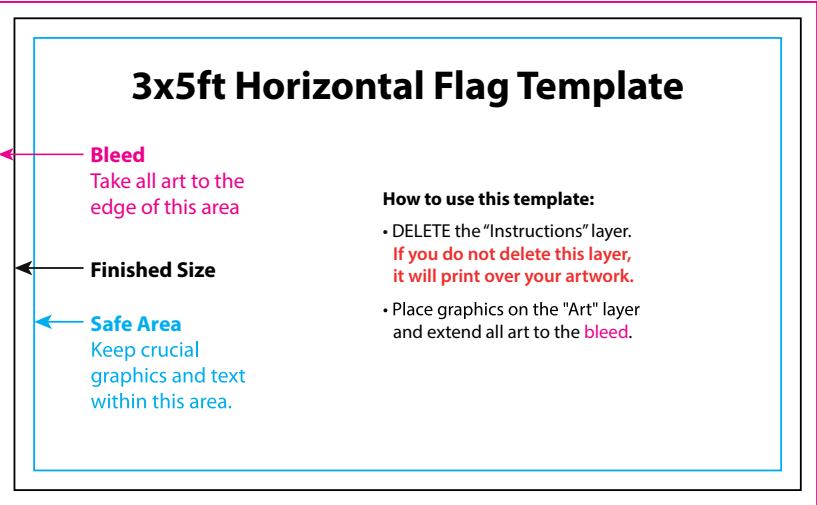

TRIM SIZE

This is the finish size you’d like your graphic to be.

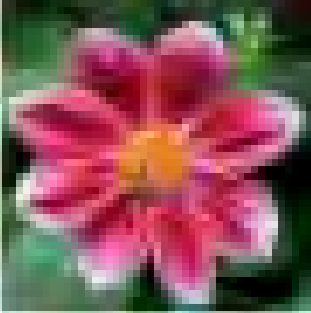

SAFE AREA

This area is where all important information, such as text and any logos, should stay so they don’t get cut off if the material being printed on shifts slightly during the printing process or when the graphic is being trimmed.

Template Example:

RESOLUTION FOR BITMAP & DIGITAL IMAGES

BEST QUALITY	NEEDS IMPROVMENT
	
High resolution image: 200 dpi minimum	Low resolution image: 25 dpi

When including Photoshop (bitmap) images, you should scan or create your image at its final reproduction size at the following resolutions:

- 75-100 pixels per inch for vinyl banners
- 100-120 pixels per inch for textile printing
- 50-220 pixels per inch for rigid substrates

Rasterized type/images in Photoshop will lose its crisp look and appear ‘out of focus’ if the file resolution is too small. Save these files in the JPEG format with the quality or compression level set to **Highest Quality or Maximum Quality**. This setting ensures there is no distortion or loss of detail while providing the best compression of the file.

HEM & TRIM ALLOWANCE

BANNERS

Our standard hem turns 1.125” of material (add 2.25” to your required finished size) and is double stitched with the stitching coming in 3/4” from the folded edge. A 2.5” margin from the (2.25” oversized) unfinished trim edge of the banner is required to prevent live content from being turned and sewn.

POLE POCKETS

Calculated based on the outside diameter of the pole. Up to 1” pole diameter would use a standard 3” pocket that has a 2.25” opening (measured flat). 1.25” – 1.875” Poles that use a 4” pocket would have a 3.25” opening (measured flat). Please request a template for banners that require pole pockets to help prevent your live content from being sewn through.

HORIZONTAL FLAGS

Standard hem for Horizontal Flags turns 0.75” of material and is Double Stitched along the top and bottom edges with the stitching coming in 3/8” from the folded edge. For 5’ x 8’ flags or larger, the Fly edge of the flag is Quad stitched and turns 2” of material with the stitching coming in 1.5” from the folded edge. All other flag sizes receive a standard hem fly end.

MARGINS

Double Stitched sides require a 1.5” margin from the unfinished trim edge to prevent live content from being turned and sewn. Quad Stitched sides require a margin of 2.5” – 3” from the unfinished trim edge. The canvas header covers 1.5” of the left hand side of the flag, so a margin of 2” from the header’s unfinished trim edge is required.

NOTE: SETUP HELP

If you’re setting up your own document, see the specific material guidelines below. If you need help, please give us a call and we can help or one of our designers can get your files set up for an extra charge.

NOTE: RIGID SIGNS

Please consult for rigid sign requests as these can have special requirements depending on project scope

COLOR MATCHING

If color is critical to your job, we can produce a small print sample of your file to inspect and/or supply a printed color chart so you can see how your Pantone spot colors will print.** Color corrections can then be made and another print sample made for final approval.

If you specify Pantone spot colors, our color management will attempt to get as close as possible. Due to the nature of digital imaging, exact Pantone spot color matches are not always possible.

Please note that metallic inks are not available for digital printing. Pantone’s CMYK equivalent will be substituted for the metallic inks specified in your file. If you do not wish to have this substitution to occur, please select a nonmetallic color to simulate the effect you are trying to achieve.
