All Products

Custom Paint Colors

It's easy to request custom color matching! Simply tell us the paint number or name of the brand of paint you'd like us to match (e.g. PMS 186 or Sherwin-Williams Boathouse Blue) and we will obtain a mixing formula at no cost to you.

Don't have a paint name or number and still need a color exactly matched? Please send us a sample (sample item must be at least 3"x 3") and our paint lab will run it through an exacting color match process. Extra charges apply.

Flat Cut

UV Colorlast is a new finishing process for multi-color logos that offers customers a cost-effective, exterior-grade product delivered faster than traditional multi-color paint without sacrificing quality. Suitable for Flat Cut Acrylic and Flat Cut Metal materials, UV Colorlast is a combination of paint and masking and UV print that provides customers with a premium quality multi-color logo backed by Gemini's Lifetime Guarantee.

FLAT CUT ACRYLIC

VIBRANT, CUSTOMIZABLE SIGNS TO ELEVATE ANY SPACE

Flat cut acrylic signs deliver highly-customizable signage at budget-friendly prices. Choose from a wide variety of vibrant colors, custom paints, or high-resolution prints for eye-catching impact. We can help further customize your sign by adding assembly of different elements including standoffs, custom painted details, and color printing.

COMMONLY USED IN THESE APPLICATIONS

DEFINITION

Flat cut signs are a type of dimensional signage created by cutting individual letters, logos, or shapes from a flat sheet of acrylic.

SPECIFICATIONS

- **Size:** Min: 3/4" Max: 95"
(larger sizes available in separate pieces)
- **Thickness:** 1/8", 3/16", 1/4", 3/8", 1/2", 3/4", 1", 1 1/2"
- **UV Colorlast** combines paint with UV print for a cost-effective price for multi-color designs
- **Lifetime guarantee** for interior and exterior use

FLAT CUT ACRYLIC OFFERS EXTREME VERSATILITY TO MATCH ANY DESIGN. LIGHTWEIGHT AND EASY TO INSTALL, THESE SIGNS ELEVATE ANY SPACE.

PRECISION CUT EDGES

For unsurpassed reproduction quality of the most intricate designs, our state-of-the-art cutting capabilities offer superior detail.

UV COLORLAST AVAILABLE

Gemini's UV Colorlast is a new, alternative solution to traditional painted surfaces. UV Colorlast combines painted base colors with UV-printed details, offering a cost-effective and fast way to add multiple colors to your sign.

WIDE RANGE OF SIZES

Sizes can range from under an inch to 95" as a single piece - or even larger by using multiple pieces.

LAMINATED

INTERIOR SIGNS WITH A HIGH-END LOOK

From lobby walls to retail displays, elevate your interior spaces with our sophisticated laminated signs. Our innovative technology artfully fuses metal, acrylic, or GemLeaf foil onto featherlight signs that can replicate the appearance of higher-cost, heavier sign alternatives. Each combination boasts a wide range of eye-catching face colors and finishes, letting you tailor your signs to perfection.

COMMONLY USED IN THESE APPLICATIONS

DEFINITION

Laminated signs are flat cut foam or acrylic with a thin layer of metal, foil, or acrylic adhered to its face.

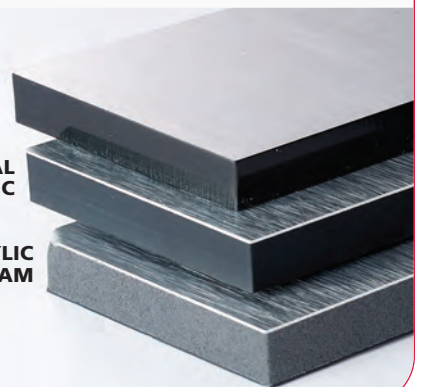

SPECIFICATIONS

- **Size:** Min: 1" Max: 24"
(min/max dimensions differ per material)
- **Depth:** 1/8" to 3"
(min/max depths differ per material)
- **Materials:** GemLeaf foil on acrylic, metal on acrylic, metal on foam, acrylic on foam
- **Lifetime guarantee for interior use**

GEMLEAF
ON ACRYLIC

METAL
ON ACRYLIC

METAL OR ACRYLIC
ON FOAM

ADD INSTANT SOPHISTICATION TO ANY INTERIOR SPACE WITH THESE LAMINATED SIGNS. OUR VARIETY OF HIGH-END FINISHES OFFER A PREMIUM LOOK AT COMPETITIVE PRICES.

HIGH-END LOOK FOR INTERIORS

Laminated signs provide a sophisticated, high-end look for your interior spaces. Use acrylic or foam with a metal laminate to replicate the appearance of flat cut metal signs at a fraction of the price.

METAL-LOOK FOR 3 TO 5 TIMES LESS

Achieve the rich, metallic allure of real aluminum, brass, and copper finishes without the hefty price tag or cumbersome weight.

LAMINATION COMBINATIONS

Our laminated signs are available in four combinations: GemLeaf foil on acrylic, metal laminate on acrylic, metal laminate on foam, and acrylic laminate on foam. Each combination is available in a large selection of eye-catching face colors and finishes.

FORMED PLASTIC

THE MOST BUDGET-FRIENDLY SIGNS FOR DEPTH & LIGHTING

These affordable signs are made with 100% recyclable plastic, and are custom-formed to provide deep dimension and lighting options that can't be achieved with flat cut signs. These tough, UV-resistant and lightweight, formed plastic signs are perfect for indoor and outdoor projects. Our UL-certified LED lighting and power supplies ensures your sign meets regulations and safety standards.

DEFINITION

Gemini vacuum forms heated plastic sheets over a mold to create dimensional and sculpted letters, logos, and sign elements.

SPECIFICATIONS

- **Size:** Min: 4" Max: 68"
(larger sizes available in multiple pieces)
- **Depth:** 1/4" to 3"
- **Face Profiles:** flat, round, prismatic, and custom sculpted
- **Lifetime guarantee for interior and exterior use, 10 year warranty on electrical components**

COMMONLY USED IN THESE APPLICATIONS

CATER TO ANY SCALE, FROM PETITE TO MONUMENTAL. WHATEVER IDEAS YOU FORM, WE CAN BRING IT TO LIFE.

MONUMENTAL SIGNAGE FOR A MINIMAL COST

Transform a 2D design into a 3D work of art. These formed plastic signs are one of the lightest we manufacture, making it easier to handle for installation.

TRIMLESS AND CUSTOMIZABLE ILLUMINATION

Add extra wow factor with our trimless face lit, halo lit and side lit options. These illuminated signs are highly customizable, lightweight, UL certified and are guaranteed for life.*

*10 year warranty on electrical components

DIMENSIONAL VERSATILITY

Multi-level dimensional details allow for bold designs and letter profiles, adding intriguing depth and dimension to your sign. Choose from multiple face profiles or customize your own for the exact sculpted shape you want.

INJECTION MOLDED PLASTIC

THE LOOK OF CAST METAL AT A FRACTION OF THE PRICE

Gemini's injection molded plastic signs provide the premium look of cast metal signage at budget friendly prices. After being molded, the letters are smoothed by hand and finished with automotive-quality paint for lasting durability. Made from tough UV stable plastic, these lightweight letters are easy to mount and durable to withstand harsh outdoor environments.

DEFINITION

Injection molded plastic signs are created by injecting recyclable plastic into precise reusable molds. The plastic fills the mold, cools, and hardens. Each letter is then ejected from the mold and finished by hand.

SPECIFICATIONS

- Size: Min: 2" Max: 18"
- Thickness: 3/8" to 1 1/2"
- Fonts: architectural, helvetica, or times bold
- Lifetime guarantee for interior and exterior use

FLAT CUT METAL

DURABLE FLAT CUT SIGNS WITH UNMATCHED VERSATILITY

Gemini's flat cut metal signs combine the elegance and durability of quality metals with unmatched design flexibility and precision. By using the latest innovations we can create thin, more exact stroke lines to replicate intricate designs and deliver sharp, smooth edges and precise details. Select from a range of high-end finishes to customize your sign.

COMMONLY USED IN THESE APPLICATIONS

DEFINITION

Flat cut metal signs are a type of dimensional signage created by cutting individual letters, logos, or shapes from a flat sheet of metal.

SPECIFICATIONS

- **Size:** Min: 1/2" Max: 95"
(larger sizes available in multiple pieces)
- **Thickness:** 1/8", 1/4", 3/8", 1/2", 3/4", 1"
- **Materials:** aluminum, brass, bronze, copper, stainless (304 & 316), and Corten
- **UV Colorlast** combines paint with UV print for a cost-effective price for multi-color designs
- **Lifetime guarantee** for interior and exterior use

FOR THOSE WHO WANT ULTIMATE DESIGN FLEXIBILITY AND SUPERIOR QUALITY, THESE DURABLE PRECISION-CUT METAL SIGNS ELEVATE ANY SPACE, INDOOR OR OUT.

PRECISION CUT EDGES

For unsurpassed reproduction quality of the most intricate designs, our state-of-the-art lasers, routers, and waterjets offer superior detail.

WIDE RANGE OF SIZES

Sizes can range from under an inch to 95" as a single piece - or even larger by using multiple pieces.

EXPRESSIVE, VIVID FINISHES

Gemini's UV Colorlast is a new, alternative solution to traditional painted surfaces. UV Colorlast combines painted base colors with UV-printed details, offering a cost-effective and fast way to add multiple colors to your sign.

FABRICATED METAL

PREMIUM QUALITY AND ENDLESS POSSIBILITIES

Gemini's fabricated metal signs are expertly crafted to your specifications. Constructed from robust stainless steel or aluminum, our manufacturing technology allows for letters as narrow as 3/8" and return depths up to 6". Choose from a variety of face finishes like metal, translucent vinyl, and custom painted hues. Our UL-certified LED lighting and power supplies ensures your sign meets regulations and safety standards. Fabricated metal signs stand up to the harshest environments.

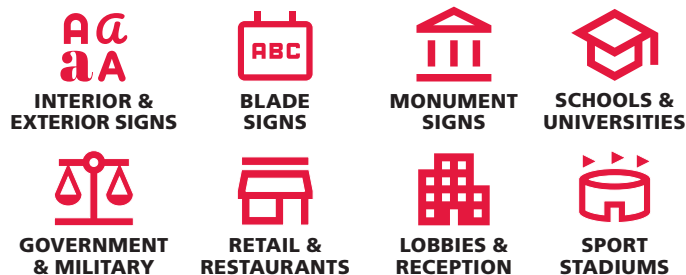

DEFINITION

Gemini's fabricated metal signs are precision-manufactured by welding or soldering stainless steel or aluminum into premium letters and sign elements that can be embedded with energy-efficient LEDs to illuminate the face or back of the sign.

SPECIFICATIONS

- **Size:** Min: 2" Max: 100"
(sizes up to 10' upon request)
- **Depth:** 1" to 6"
- **Materials:** stainless steel and aluminum
- **Lifetime guarantee for interior and exterior use, 5 year warranty on electrical components**

COMMONLY USED IN THESE APPLICATIONS

GO BEYOND THE ORDINARY WITH FABRICATED METAL SIGNS. ULTIMATE DESIGN FLEXIBILITY AND DURABILITY FOR YOUR MOST PROMINENT SIGNS.

DIMENSIONAL FLEXIBILITY

Our precision manufacturing technology allows for a wide variety of stroke-to-depth ratios, letting you achieve delicate strokes as narrow as 3/8" and return depths of up to 6".

FROM MINI TO MONUMENTAL

Our metal fabrication capabilities include structurally robust gauges of stainless steel and aluminum, allowing for sign elements as small as 2" or as massive as 10'.

BRING YOUR VISION TO LIGHT

Achieve a beautiful, diffused illumination with face or halo lighting options. Make a dramatic statement and provide outstanding visibility day and night. Our UL-certified LED lighting and power supplies ensures your sign meets regulations and safety standards.

MADE-TO-ORDER. MADE TRUE.™

Cast & Flat Cut Metal Letters and Logos

Flat Cut

Cast

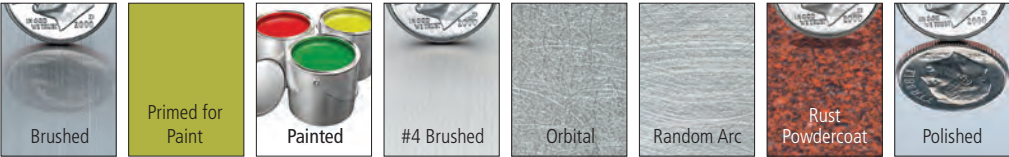

Premium & MINI

Made True.

Aluminum (1/8" max. single piece - 24" x 30", 1/4" max. single piece - 46" x 48", 3/8" max. single piece - 46.5" x 95", 1/2" max. single piece - 46.5" x 95", 3/4" max. single piece - 46.5" x 95", 1" max. single piece - 46.5" x 95", max. single piece polished -30" diameter)

Alloy 5052:

Anodized and Anodized Polish

Bronze (Max. single piece 1/8" - 35" x 95", 1/4", 3/8" & 1/2" max. single piece - 45" x 59", max single piece oxidized or patina - 29" x 29", max. single piece polished - 30" diameter)

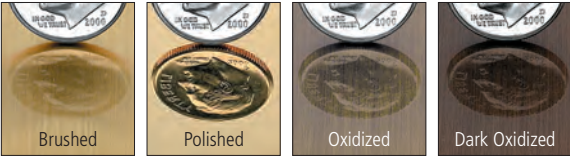

Alloy C22000: 90% copper & 10% zinc – **0% lead.**

(Alternative oxidized finish also available)

Brass (1/8" max. single piece - 47" x 59", 1/4" max. single piece - 47" x 73", 3/8" & 1/2" max. single piece - 48" x 59", 3/4" max. single piece - 35" x 59", max single piece oxidized or patina - 29" x 29", max. single piece polished - 30" diameter)

Alloy C46400: 60% copper, 39.25% zinc and .75% tin – **0% lead.**

(Alternative oxidized finish also available)

Copper (1/8" max. single piece - 35" x 95", 1/4" max. single piece - 39" x 59", 3/8" max. single piece - 35" x 95", max. single piece polished - 30" diameter)

Alloy C11000:

Stainless Steel (1/8", 1/4", 3/8" & 1/2" max. single piece - 46.5" x 95", max. single piece polished - 30" diameter)

Alloy C304: Corrosion resistant stainless steel.
Alloy 316: More corrosion and tarnishing resistant for marine and harsh environments.

NOTE: Stainless steel letters and logos are produced without a clear coating. Alloy C304 will not tarnish under most conditions. In cases where stainless steel letters and logos will be installed in salt water or harsh environments Alloy 316 offers even better corrosion and tarnishing resistance. Using harsh chemicals may cause permanent damage to the materials surface. Clean letters with a soft cloth and warm soapy water, white vinegar or glass cleaner.

Cor-Ten® Steel (1/8" & 1/4" max. single piece - 46.5" x 95")

Cor-Ten® Steel is the ideal material for a rustic or antique look. All Cor-Ten® Steel, by its very nature, will vary from letter to letter and order to order and will form a protective surface coating when exposed to the weather.

Flat Cut Metal Mounting Options

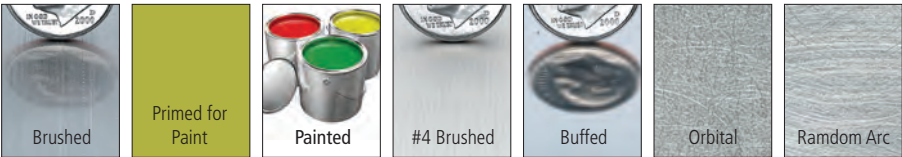

Plain (no mounts)
Stud (1/8" is stud welded, 1/4" + is drilled & tapped to receive stud)

NOTE: Studs required for polished and anodized finishes.
Letters / logos can also be stud mounted to metal rails.

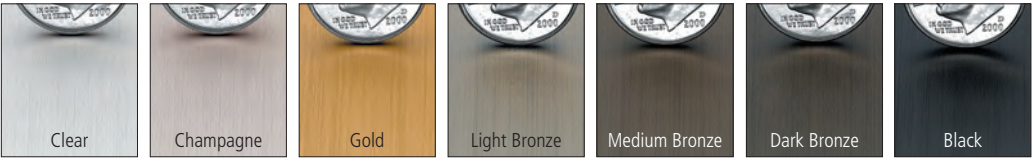

Aluminum

Alloy #514

Finish Note: Brushed finishes have a low gloss clear coating. Buffed finish has a gloss clear coat. Painted letters are available with a gloss, satin or matte sheen.

Anodized

ANODIZING: Anodized letters meet the requirements of A43 from the Aluminum Association's Architectural finish thickness standards, by producing an Anodic coating of .8 to 1.0 mils deep. The hardness of the aluminum oxide coating rivals hard stones, giving it greatly improved abrasion resistance. The aluminum oxide surface is also corrosion resistant, making it ideal for industrial, humid and marine atmospheres. Anodized letters are not clearcoated.

Bronze

Alloy NAVY G: 88% copper, 8% tin, 4% zinc – 0% lead.

(Alternate oxidized finish also available)

FINISH NOTES: Brushed and oxidized finishes are coated with a low gloss acrylic polyurethane to prevent corrosion. Polished finishes are coated with a high gloss acrylic polyurethane to prevent corrosion.

All Patinas, by their very nature, will vary from letter to letter and order to order. These finishes will change in appearance over time depending on contact with moisture and temperature. Patinas can "bleed" onto the installation surface when installed outside.

Custom Cast Metal Letters

Custom Cast – Per vector art. Flat, prismatic, round, sculpted & profile options. Letters & logos.

Cast Metal Letter Mounting Options

Flush Stud

Projected Jam Nut Mount

Projected Spacer Mount

Corrugated Mount

Flat Metal Wall Mount

3A - Singel or Double Rail Mount
Includes painted or anodized c-channel rails.
Letters 4"-24"

3B - Bottom & Top Rail Mount
Letters 4"-24", Minimum 3/8" thick
Includes painted or anodized c-channel rails. Letters over 8" may require tie-back (not supplied).

3C - Bottom or Top Stud
Letters 4"-24", Minimum 3/8" thick
Letters over 8" may require tie-back (not supplied).

3D - Bottom Back Angle Bracket Mount
Letters 4"-24", Minimum 3/8" thick.
Letters over 12" may require tie-back (not supplied). Angle iron is 2" x 2" with a painted finish.

Premium

Premium Metal Letters are waterjet or laser cut then hand-stroked or polished—in such a way that the returns and faces are perpendicular, so there is little if any rounding of the edges. Premium finishes are available in most flat cut out materials and thicknesses—in sizes over 3." Minimum 1/4" thick for polished finishes.

Aluminum & Stainless Steel Finishes

Bronze, Brass & Copper Finishes

Mini Metal Letters (1/8", 3/16" & 1/4")

Elegantly crafted for interior needs, yet sturdy enough for exterior signage, Mini Metal Letters are precision-made letters that are ideal where the use of extremely small letters is a necessity. Made of the finest grade bronze, brass and aluminum, they are precision cut with crisp, clean edges and smooth, nearly polished returns. Mini metal letters are produced in sizes ranging from 1/2" to 3" in height. Aluminum mini letters come in brushed, painted, anodized or polished finish.

Flat Cut Metal Styles: Virtually any style available with vector art.

Made True.

Stainless Steel Fabricated
without Back

Precision fabricated stainless steel Letters, expertly crafted from pre-finished C304 or 316 Alloys. Offering heavy-gauge construction with multiple finish options—all internally secured with lead-free continuous solder or laser welds. Produced in sizes from 2" high to 36" high, in nearly any letter style or logo of your choice. Return depths from 3/8" to 6" deep.

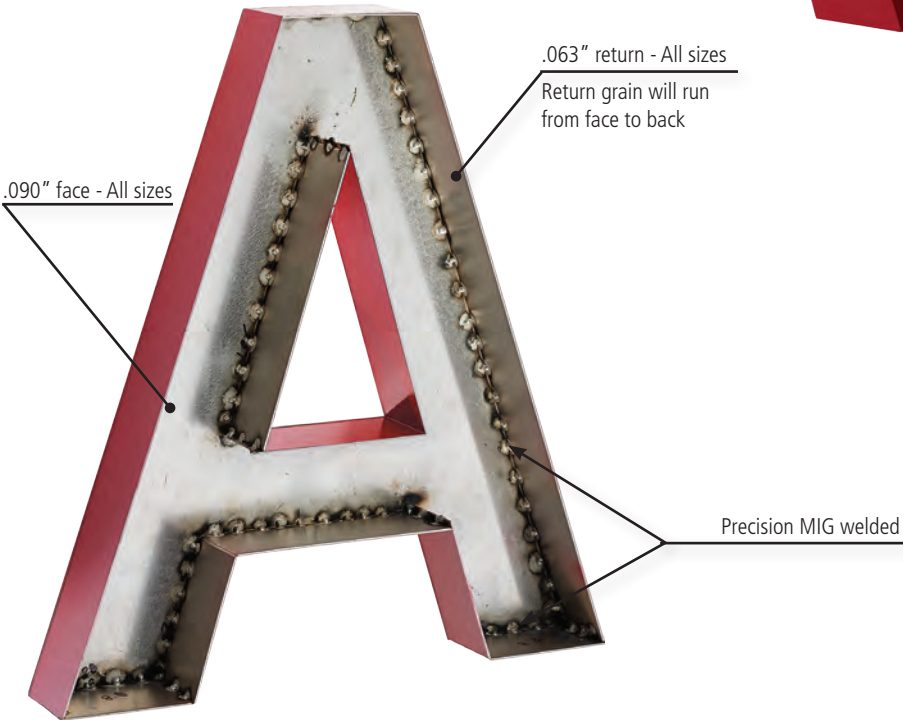

Mounting

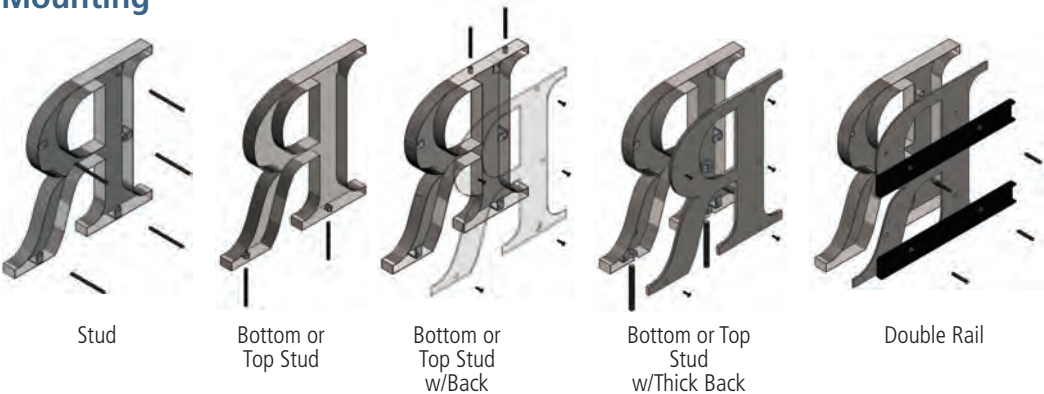

Aluminum Fabricated without Back

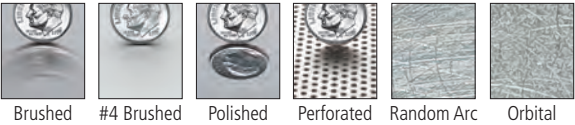

Heavy gauge fabricated aluminum letters, handcrafted from 5052 alloy aluminum with .090" faces and .063" returns that are MIG welded for extra strength and stability. Typically painted, but can be brushed or anodized to lock-in corrosion resistance. Produced in nearly any letter style or logo of your choice in sizes from 16" to 100"—with 1" to 6" deep returns.

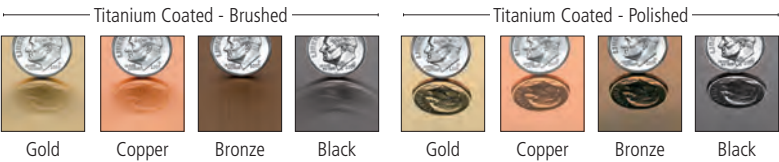

Mounting

Stainless Steel Alloy 304:

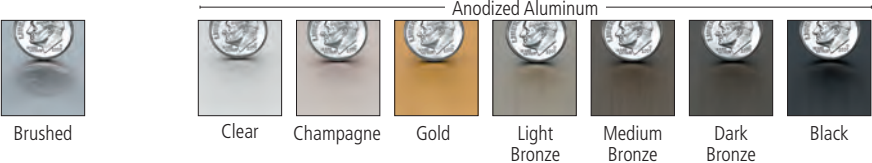

Vertical grain is standard.
Horizontal grain available.
Mixed face and return finishes available.

Stainless Steel Alloy 316

Aluminum Alloy 5052:

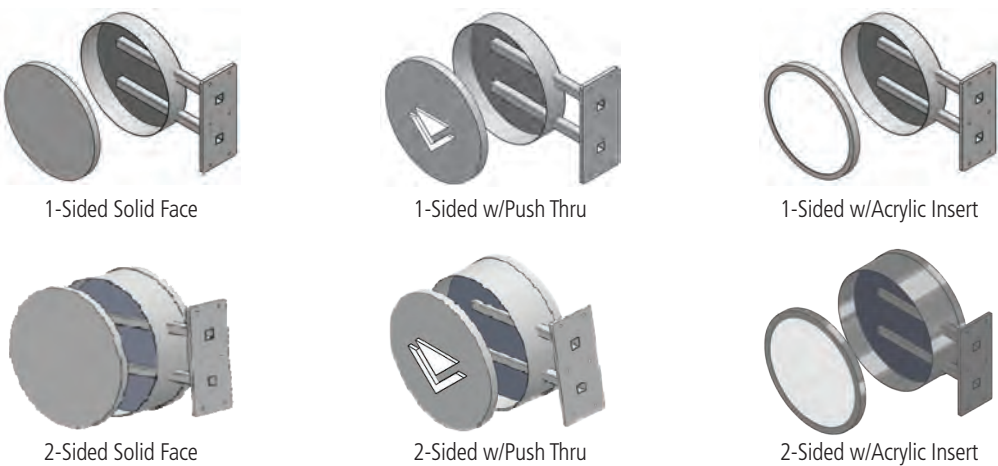

Aluminum Fabricated Blade Sign

Fabricated metal blade signs, available in aluminum, offer an upscale, projected sign that offers a refined look in our 5 available configurations. With heights up to 46 inches blade signs make an impact on any walkway. Finish blade signs in any of our standard painted colors, or request a custom match at no cost to you.

Stainless Steel Fabricated Halo-Lit

Produced in a wide range of sizes from 6" to 36" high, and depths from 1" to 6", in multiple stainless finish options, all lit with one of five LED colors. Halo Lit fabricated letters are produced with a removable can to allow for servicing of LEDs. In addition, optional detachable studs create a 1-1/2" stand-off, and allow easy removal of letters from the wall.

Aluminum Fabricated Halo-Lit

Gemini's aluminum reverse channel letters, available from 16" to 100", feature a durable .090" (2.3mm) face gauge with .063" gauge returns, and offer a choice of light diffused plastic backs with integrated LEDs to provide the lighting effect you desire. Available in depths from 1" to 6", these letters provide outstanding light consistency and brightness. Halo Lit fabricated, produced with a removable can to allow for servicing of LEDs—or optional detachable studs to create a 1-1/2" stand-off, and allow easy removal of letters from the wall.

LIT ACRYLIC

BY GEMINI

Craftsmanship, illuminated

The glow of sophistication.

Take your signage upscale. Let us give your signage a distinctive, sophisticated look with crisp, precision-machined letters, producing an even diffused glow. This line of acrylic letters feature seamless, precisely defined edges and a low, 1½" profile. Illuminated, the result is a beautifully sophisticated, diffused effect, worthy of the highest-end establishment.

Available in 10 varieties of face, side and halo lit versions – including new face options of Chemetal™ laminate and paint, all with lit returns. These letters are designed with a removable back, to be able to service the LEDs. As with all Gemini products, lit acrylic letters are backed by a lifetime warranty. UL-certified LED lights and power supplies come with a five-year manufacturer's warranty.

- Face, halo and return illumination options
- Nearly limitless customization options on sizes, finishes and colors
- Lifetime warranty on letters and logos
- Made in USA
- Typical 10 day production time
- UL Certified

Made True.

Made True.

A better letter lasts longer. Pronto™ Changeable Copy.

Gemini Pronto™ Changeable Copy is a cut above traditional saw-cut changeable copy. Made from a rigid and durable injection-molded blank, each panel is molded with a small raised edge on the back designed to prevent scratching as the letters are moved in and out of the Pronto track, extending the useful life of each letter. The molded-in feet keep debris and ice from interfering with the change out. Best of all, eco-friendly Pronto letters use highly durable UV inks with no VOCs. With Pronto, there are no harmful emissions created during our manufacturing process.

Our Pronto letters and accessories are available through our nationwide network of sign supply distributors.

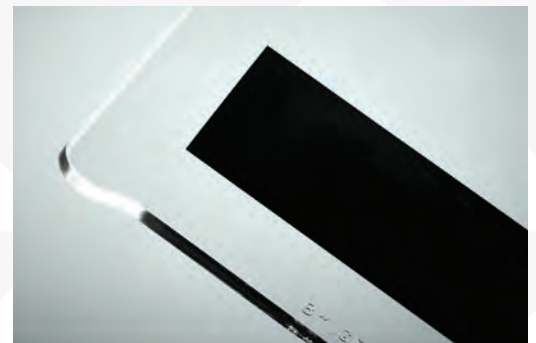

Pronto Standard Sizes

Important Note:

To order, please specify **Letter Height** and **Panel Height**

LETTER HEIGHT (IN.)	PANEL HEIGHT (IN.)

FABRICATED BLADE SIGNS

ATTRACT CUSTOMERS FROM EVERY ANGLE

Gemini's fabricated blade signs face pedestrians and vehicles as they approach your business from either direction, maximizing visibility on busy streets and tight spaces. Choose from six configurations, vibrant colors, and LED illumination to create a high-impact, custom sign that gets your brand noticed. Our blade signs are produced fast and guaranteed for life.

COMMONLY USED IN THESE APPLICATIONS

DEFINITION

Gemini's fabricated blade signs are aluminum signs mounted on either the top, side, or bottom at a 90-degree angle to their mounting surface. They can be single or double-sided, lit or unlit. They are typically crafted in circular or rectangular shapes, but are also available in custom shapes.

SPECIFICATIONS

- Size: Min: 12" Max: 46"
(sizes may vary on configuration)
- Depth: Min: 3" Max: 6"
- Materials: aluminum
- Configurations: solid, push thru, and acrylic faces on one or both sides of the sign
- Lifetime guarantee for interior and exterior use, 5 year warranty on electrical components

DON'T LET CUSTOMERS PASS YOU BY. PROJECT YOUR BRAND WITH PERPENDICULAR SIGNS FOR GREATER VISIBILITY TO CROSS TRAFFIC.

GREATER VISIBILITY TO CROSS TRAFFIC

Because they're perpendicular to a wall, fabricated blade signs face pedestrians and vehicles as they approach your business from either direction - making your business more noticeable and easier to find.

BIG SIGN, SMALL MOUNTING SURFACE

When wall space is limited, fabricated blade signs offer a creative way to attract attention and draw in customers. Blade signs as large as 46" x 12" and can be mounted onto smaller surface areas.

LIT FROM WITHIN & VIVID LED HUES

Add LED lighting to your fabricated blade sign to make it stand out day and night. Move beyond static illumination and step into a world of dynamic color expression with Gemini's programmable color technology. Our UL-certified LED lighting and power supplies ensures your sign meets regulations and safety standards.

**GEMINI PRODUCTS ARE
GUARANTEED FOR LIFE**

WHEN IT COMES TO COLOR MATCHING, OUR CAPABILITIES ARE UNMATCHED.

STANDARD COLOR GUIDE

CUSTOM PAINTING

By allowing us to provide you with high quality, UV stable, polyurethane painted products, you can avoid extra labor, costly resources, and environmental challenges associated with spraying paint. Just like other Gemini products, our paint is guaranteed for life.

When requesting custom paint on your product, please be sure to provide:

- The custom paint number (PMS Pantone, Matthews Paint, Benjamin Moore, Sherwin Williams, etc.)
 - The color description (blue, red, etc.)
 - The desired sheen level (gloss, satin, matte)
- Example: PMS 300C Blue Satin

MATCHING CUSTOM PAINT

If you need to match a custom paint color, we suggest sending us a sample of that color. The ideal sample size for matching paint is 3"x3". You can also send in a piece of the sign you are trying to match. When paint matching is complete, we can send the piece back to you or recycle it.

Gemini dimensional letters, logo and plaques are sold exclusively by Gemini Authorized Resellers, and are backed by a Lifetime Guarantee.

If you are interested in samples of our metal finishes or other products, please contact customer service at 1-800-538-8377 or visit the Partner Portal on GeminiSignage.com
